

LESSON PLAN

60 MINUTES

Subject: Sustainability

Topic: Recycling

Date: Apr 17/2024

Grade: 2nd

Main objectives:

Understanding the concept of recycling

Identifying recyclable materials

Recognizing the impact of recycling on the environment

Reflecting on personal responsibility

Materials & Resources:

- Recycling for kids (Youtube)
- Worksheet: Recycling
- Experiential game: Recognize materials
- Song: Reduce, Reuse, Recycle
- Painting with augmented reality (Quiver Vision)

Learning Outcomes:

Pupils will be able to...

- define recycling
- identify recyclable materials
- understand the environmental impact
- sort recycleables
- create art
- demonstrate responsibility
- collaborate in groups
- promote recycling in the community

Instructional Sequence:

- We watch an online video: Recycling (10 minutes)
- We color the recycling bins by materials (15 minutes)
- We are participating in an experiential game (10 minutes)
- We are listening to a song about recycling (5 minutes)
- We “bring” our drawings “in life” in groups with an augmented reality application (15 minutes)

Assessment:

Online quiz - Wordwall (5 minutes)
